

To Whom it may concern:

I am writing to you regarding the FCC's plan to pre-empt Indiana's "Do Not Call" rule. I have been extremely please with Indiana's law since it was implemented this year. I feel the FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections. During this year we have gone from 1-2 unwanted solicitation phone calls, to no unsolicited phone calls. Now, only a few charities that we regularly give to will call us at home requesting our time or money. I do not want to be bombarded by telephone and credit card companies wanting me to switch to this or that plan. I can easily recycle any paper mail that is sent to my home, and delete any email from my computer that I recieve. This takes mere seconds, and does not force me to be rude to some faceless, nameless person on the phone. Also, their unwanted phone calls invariably come at the time when I least want to be disturbed. Please do not pre-empt Indiana's, or any other state law. We are perfectly capable of making our own decisions on what works best for us. Sincerely;
Bruce E. Williams, D.P.M.
